

MEDI-BAND™

SEAMLESS TUBULAR BAND

LATEX FREE

Medi-Band can be worn as a tube top during water births and by nursing moms. It also provides comfort following Radiation therapy.

Medi-Band used as a seamless fetal monitoring band is flexible and comfortably secures abdominal fetal monitors in place.

The soft, woven, white polyester, stockinette style band consists of:
85% Polyester & 15% Spandex.

Medi-Band can be worn as a “Disposable Bra” for use as disposable underwear due to infectious viral outbreaks.
